ready-made box for License Plate Guitar

## Description

Wooden box for the construction of a license plate guitar. Without neckline for neck. Must be cut out depending on the neck type. A matching CBG neck is available here in the shop => Bundiert  
The holes for tone, volume control and mono jack are already provided. The required screws for mounting the License Plate are included. The wooden crossbeams inside the box are not included.

(License Plate is not part of the delivery and is only shown for demonstration purposes).
